

Embedding JoVE Videos Into canvas

1. Go to the JoVE page displaying your video of interest.
2. Next to or below the video there is an embed button.
3. Click and then copy the entire HTML code.
4. Return to your Canvas page to the location where you wish to host the video.
5. At the bottom, underneath the text box, click the HTML Editor button
6. Paste your HTML code into the box, then click the HTML button again to go back to the regular editor.
7. Your video should appear in the box.
8. Click Save at bottom right.
9. View video in course page.
